# BEHIND THE BUILDER

**A conversation with  
Barry Swenson,**  
President & CEO,  
Barry Swenson Builder

## **Family First**

“My grandfather landed in California from Sweden. I don’t think he could have picked a better place. My wife, Molly, and I have enjoyed raising our family here, and the BSB team is really part of that family. A man is only as bright as the people around him, and I have some incredible people working with me.”

## **Gentleman Farmer**

“I love being outside, working with my hands and creating something to be proud of. I learned this love from my father and grandfather and this year, we celebrate 100 years of my family building, farming and enriching California. One of my favorite places to be is my ranch. I grow organic food at my home and I’m a big gardener.”

## **Man of the Earth**

“Well, this is the 35th anniversary of Barry Swenson Builder and it’s amazing to look back and see how hard people have worked. Part of that work is being responsible and respectful of the soil on which we build. I always make sure my team is resourceful in our ability to honor the land while building the future.”
